with PowerG Technology

Wireless PowerG Indoor Siren

PG9901

PowerSeries neo compatible

Features That Make a Difference:

- **PowerG*** robust industry leading commercial grade wireless technology
- Visible link quality indicator on device
- 110db Siren with Strobe Light
- Siren sounds for Fire, Carbon Monoxide, Burglary and Flood Events
- Long-life lithium batteries included
- Compatible with PowerSeries Neo systems

The power of PowerG:*

The power behind PowerSeries Neo lies in various innovative technologies, including the revolutionary PowerG, which, bundled together, provide a robust and feature-rich platform designed to reduce operational costs for dealers and provide ultimate reliability for end users.

- Multichannel, Frequency Hopping Spread Spectrum technology - to overcome frequency blocking and interference
- Adaptive Transmission Power - for battery life preservation
- High transmission ranges - for reliable communication within up to 2km/2187 yards line-of-sight
- TDMA synchronized communication technology - to prevent message collisions
- 128 bit AES encryption - high level protection against analysis tools and digital attacks

Wireless PowerG PG9901 Indoor Siren

The PG9901 Wireless PowerG Indoor Siren is a fully supervised, cost effective siren that provides differentiated audible and visual alerts in the case of fire, carbon monoxide, burglary and flood events. In addition to providing a loud audible alert, the PG9901 also contains a built-in high-power white strobe light providing a visual alert of the event.

With its sleek and modern design, the PG9901 will fit most internal spaces.

Easy to Install | Signal Quality Indication

Since the PG9901 is wireless, it can conveniently be installed in numerous locations inside the home. With fewer holes to drill and reduced installation time, an installer can quickly move on to another installation.

The PG9901 Wireless PowerG Indoor Siren is equipped with a visible signal quality LED indicator that lets the installer choose the optimal location for installation, eliminating the effort of going back and forth to the keypad. All siren configuration settings are handled on the keypad with no need to re-open the device once installed.

DSC

From Tyco Security Products

Specifications:

Dimensions:.....161 x 161 x 50mm
(6-7/16 x 6-7/16 x 1-3/4in)

Battery Life: .....8 years (typical use)

Battery Type: .....3.6V, Li-Thionyl Chloride

Weight (including battery): 470gr (16.5oz.)

Operating Temperature: .... -10°C to 55°C (14°F - 131°F)

Approvals:

FCC/IC, UL/ULC, CSFM

Compatibility:

PowerSeries Neo Systems

PowerSeries Neo is Security Redefined

PowerSeries Neo by DSC redefines intrusion security by combining the flexibility of a modular, hardwired system with the simplicity of a wide range of wireless devices and peripherals, resulting in the most comprehensive hybrid system available in the market today.

This brand new and exceptionally flexible platform leverages the superior capabilities of PowerG – the industry's leading-edge wireless intrusion technology. Innovative alarm verification solutions, together with an exceptionally comprehensive remote service software suite, make PowerSeries Neo the ideal first-class solution for residential and scalable commercial installations.
